Online Education

1. Does all programs/courses were completed on time.	Yes
2. Measures taken to complete the syllabus of courses and programs.	With the sudden development of the Covid pandemic and the consequent lockdowns, the Institute had to be agile in making rapid changes to ensure academic continuity. The Institute quickly adapted to online classes, reworked the Academic Calendar, changed from a 5-day to a 6-day week, and reduced class duration from 90 minutes to 45 minutes to enable students with limited internet bandwidth to attend classes. Online virtual labs were also introduced in a very short period of time. Course assessment plans were reworked in each subject in compliance with guidelines emerging across the nation for online/offline examinations. Some courses were also switched between odd and even semesters to improve their effectiveness in terms of requirements for hands-on/practical components. Moreover, the Institute utilized the opportunity offered by these changes to launch new and innovative fully online courses such as Engineering 101 for which a wide array of subject matter experts from various industry verticals were brought in to expose our students to the best of technologies and engineering practices. The Institute also organized online sessions for non-teaching staff members to utilize the lockdown time effectively by learning new skills while also staying connected with each other and the Institute.
3. The period of delay in completion of syllabus (in months).	0
4. The period of delay in conducting exams (in months).	0
